

SPEC SHEET BPM Bike

Pedal your way to a healthy, happier life with the BPM Aqua Spin Bike. Our innovative bikes combine the high-intensity thrill and results-driven workout of indoor cycling with the low-impact, resistance-strengthening benefits of water. The BPM Aqua Spin Bike is one of only two bikes on the market that allow participants to adjust the resistance while spinning in the water, creating an immersive experience without interruptions.

The image is a composite. On the left is a white rectangular spec sheet for the Aquastrong BPM Bike. It features the Aquastrong logo at the top, followed by technical specifications: MATERIAL (Inox AISI 316L), WEIGHT CAPACITY (350LBS), CYCLING INTENSITY (Adjustable), and DEPTH OF USE (3.5 - 4.5 Feet). Below these are six icons in a 2x3 grid, each with a label: ADJUSTABLE (gear icon), DURABLE (chain link icon), TRAINING CERT (book icon), COMFORT (stack of books icon), NON-SLIP (wave icon), and STABLE (bicycle icon). On the right is a photograph of a person with tattoos, wearing a blue swimsuit and a black cap, riding an orange Aquastrong BPM Bike underwater in a pool. The bike is partially submerged, and the person is in a cycling position. The background of the entire image is a blue-tinted underwater scene with other bikes visible in the distance.

PRODUCT INFO

- Unique in the world, elegant, innovative, and functional design: equipped with a polyethylene shell and stainless steel frame with oval outlines
- The brake system was studied by the R&D department to guarantee increased fluidity and durability
- A wide handlebar allows more positions and a better grip
- Resistive pedal in polyethylene, designed to increase the pedaling fluidity and strength
- The stability of the bike is ensured by the perfect balance between the front and rear axle, the new reinforced bases, and four suction cup feet
- The 74° saddle-handlebar angle ensures the best position during use, excluding horizontal saddle adjustments
- Wheels on the front base allow easy movement of equipment during surfacing and movement on pool deck
- 2-year limited manufacturer's warranty.

Additional Perks

- **Two Color Choices.** Orange, Lime
- **ABS™ Aqua Cycling Certification Training.** Instructors have the opportunity to become certified to teach Aqua Body Strong™ Aqua Cycling, the workout that features 10 blocks of high-energy, aqua cardio combinations and intervals. From flat roads to standing climbs and everything in between, They'll learn how to create dynamic combinations using ABS™ foundational exercises, understand the science and benefits behind an ABS™ Aqua Cycling workout, utilize the ABS™ Aqua Cycling signature formula, and know how to safely teach ABS™ Aqua Cycling to all ages and fitness levels.
